

# Management Assurances and Other Financial Compliances

## MANAGEMENT ASSURANCES

The Department's Management Control policy is comprehensive and requires all Department managers to establish cost-effective systems of management controls to ensure U.S. Government activities are managed effectively, efficiently, economically, and with integrity. All levels of management are responsible for ensuring adequate controls over all Department operations.

### FEDERAL MANAGERS' FINANCIAL INTEGRITY ACT

The Department of State's (the Department's) management is responsible for managing risks and maintaining effective internal control to meet the objectives of Sections 2 and 4 of the Federal Managers' Financial Integrity Act. The Department conducted its assessment of risk and internal control in accordance with OMB Circular A-123, *Management's Responsibility for Enterprise Risk Management and Internal Control*. Based on the results of the assessment, the Department can provide reasonable assurance that internal control over operations, reporting, and compliance were operating effectively as of September 30, 2017.

Management's responsibility for establishing and maintaining effective internal control over financial reporting, which includes safeguarding of assets, is an important reporting requirement. The Department conducted its assessment of the effectiveness of internal control over financial reporting in accordance with Appendix A of OMB Circular A-123. Based on the results of this assessment, the Department can provide reasonable assurance that its internal control over financial reporting was operating effectively and

the Department found no material weaknesses in the design or operation of the internal control over financial reporting.

As a result of its inherent limitations, internal control over financial reporting, no matter how well designed, cannot provide absolute assurance of achieving financial reporting objectives and may not prevent or detect misstatements. Therefore, even if the internal control over financial reporting is determined to be effective, it can provide only reasonable assurance with respect to the preparation and presentation of financial statements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Rex W. Tillerson
